

Q.

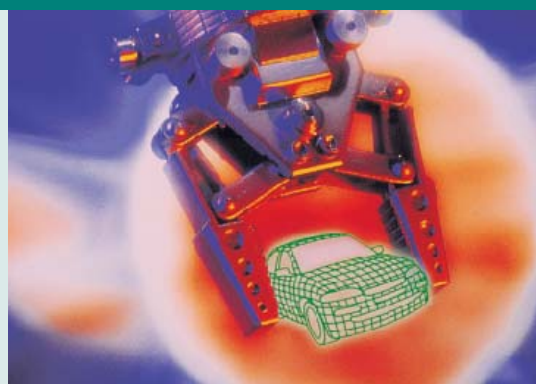

*What is the  
first indicator of any  
vehicle's worth ?*

A.

*Its appearance,  
inside and out.*

## The "Protector".

Beam High Performance Auto Protection is a name we wear proudly; because we've earned it.

From superior window tinting to all external and internal protection, we've had you covered for over twenty years.

We've scoured the world to find new products, and researched and field-tested every one of them for their capacity to beat harsh Australian road and weather conditions before giving them our official endorsement and Exclusive Nationwide Warranty.

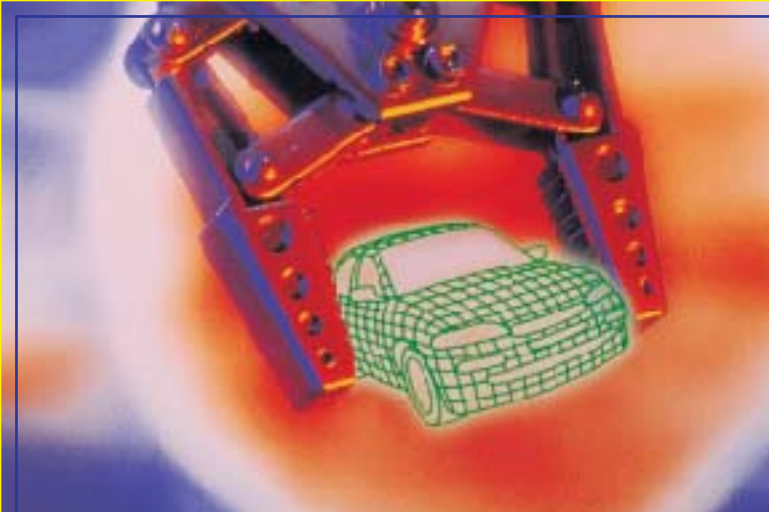

Your protection at the fairest possible price –that's our unequivocal commitment to you.

**PROTECTING YOUR  
INVESTMENT  
INSIDE OUT.**

# NOW a Prevention and Protection pack for a classic showroom appearance.

## STEP 1

### KILL RUST

The salt air and extremes of wet and dry around Australia dramatically increase the cancerous devastation of rust. For an Australian rust killer to work, it must perform in all heavy weather conditions. Only Beam rust killer met our stringent criteria and beat Australian Rustproofing Standard AS 2662 for auto protection.

When applied to metal, particularly unpainted or recessed cavities (where rust starts), it creates a super seal that's virtually impervious to rust.

Before.

After.

HIGH PERFORMANCE PROTECTION

## STEP 2

### INTERIOR LUXURY PACK. Fabric Leather Vinyl

The exclusive Beam Interior Luxury Pack treatment is as good as you can get. It virtually guarantees the end of all permanent water, dirt and oil stains – just wipe or vacuum them away.

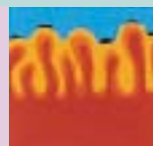

Our Fabric protection permeates and coats every fibre with a colourless durable anti-stick, anti-dirt barrier.

Our Vinyl and Leather protection penetrates deep to maintain suppleness, colour and that “as new” feel.

As well, the Interior Luxury Pack blocks most of the sun's harmful ultra violet rays.

Before.

After.

## STEP 3

### PROTECT PAINT

**PAINT PROTECTION** is an exclusive high-tech polymer coating that's applied to your vehicle's paintwork in two critical stages.

The result is a stunning mirror-like showroom finish with an ultra resilient barrier that helps protect against atmospheric pollutants, harsh UV rays, road grime and rain.

Your vehicle will be easier to wash and keep on looking good, longer.

Before.

After.

**The showroom shine is literally sealed in!**
